

Nintex Workflow Cloud empowers anyone in your organization to unlock the transformational business benefits of human-centric workflow automation. Using just clicks—not code—you can easily extend and connect the content repositories and systems of record your business runs on with the people who make the decisions your business relies on to succeed.

EASY. GO FROM CONCEPT TO AUTOMATION IN DAYS NOT YEARS

Hit the ground running fast with a cloud-based solution that removes upfront setup and costs

Drag-and-drop to design and build workflows the way you think – in a few clicks, not code

Connect structured and unstructured content sources, from legacy systems to modern SaaS apps

HUMAN-CENTRIC. PUT PEOPLE AT THE CENTER OF ANY BUSINESS PROCESS

Empower the people closest to lines of business to automate the processes that are your business

Bring the right content, at the right time, to the right people

Share the workflow innovations your people create, to benefit your entire business

INTELLIGENT. GAIN INSIGHT AND CONTROL OVER EVOLVING WORKFLOW CHALLENGES

Measure the business impact of your workflows, immediately and in the future

Make data-driven decisions that identify the best opportunities for business impact

Benefit from the virtuous cycle: the more you automate, the more you learn, enabling you to automate more
